

### REMARKS

Favorable consideration and entry hereof are respectfully solicited.

Applicants wish to thank the Examiner for the courtesies extended during a telephonic conversation with Applicants' representative on July 25, 2007. During the conversation, Applicants' representative explained that in the May 23, 2007 Amendment, it was intended that the expression --and information indicating a relationship between a track on the recording medium and the azimuth angles of the reproduction heads-- be added to the end of the "control unit" and "memory writing unit" paragraphs of the claim (as was argued in the remarks of that Amendment). While the expression was added to the end of the "memory writing unit" paragraph, it was mistakenly appended to the "tracking unit" paragraph instead of the intended "control unit" paragraph, so the present amendment is to correct this error.

Applicants gratefully understand that the Examiner is in tentative agreement that the present amendment will be entered, and favorable consideration is earnestly solicited. MPEP 714.16.

Applicants' undersigned attorney may be reached in our Washington, D.C., office by telephone at (202) 530-1010. All correspondence should continue to be directed to our address below.

Respectfully submitted,
